

Programme

Morning session: 10.00-13.00

Chaired by: Prof. Guido Fumagalli, Dr. Ilaria Decimo

Flavia Guzzo, Department of Biotechnology, University of Verona, Verona, Italy

Stem cells and totipotency: growing for 1000 years (...and more)

Giacomo Consalez, Division of Neuroscience, San Raffaele Scientific Institute, Milano, Italy

Neurogenesis regulation during cerebellar development

Gianvito Martino, INSPE, Division of Neuroscience, San Raffaele Scientific Institute, Milan, Italy.

Therapeutic plasticity of neural stem cells

Afternoon session: 14.00-18.00

Chaired by: Prof. Mauro Krampera, Prof.ssa Mariagrazia Grilli

Michal Schwartz, The Weizmann Institute of Science, Israel

The multiple roles of spinal cord neurogenesis: from touch sensation to repair

Francesco Bifari, Department of Medicine, University of Verona, Italy

Adult spinal cord meninges: a new source of neural stem cells.

François Féron, CNRS UMR 6184, Université de la Méditerranée, Marseille, France.

Nasal olfactory neurogenesis and the repair of central nervous system

Bruno Bonetti. Department of Neurological Sciences and Vision, University of Verona, Italy.

Therapeutic potential of adipose-derived MSC in neurological diseases.
